OBJECTIVE

Dedicated and motivated second-year student at IIE MSA pursuing a Bachelor of Computer and Information Science degree, with an expected graduation date in 2026. With a strong passion for IT and a desire to start a career in IT support services, I aim to secure an entry-level IT support position to apply my technical knowledge, critical thinking skills, and commitment to excellent customer service. Despite being in the early stages of my academic journey, I have already delved into foundational subjects such as programming, network engineering, programming logic and design, databases, software engineering ,systems analysis and design, web development and Mathematical Principles for Computer Science. Although I currently lack professional experience, I am enthusiastic about building a robust foundation in IT and eagerly anticipate applying my knowledge and skills as I continue my education and gain practical experience in the field.

EDUCATION

-**IIE MSA (Current)| Johannesburg, South Africa**
  Bachelor of Computer and Information Science (Expected Graduation: 2026)

How to report emissions under the Convection on Long-range Transboundary Air Pollution - **UNECE**

WORK EXPERIENCE

02/2024 – to date: Mathematics Tutor at **IIEMSA.**

SKILLS

 Technical Skills:

- Operating Systems: Windows
- Software Installation
- Netbeans IDE
- BlueJ IDE
- Microsoft Word
- Microsoft Teams
- Power Point

- Visual Studio IDE
- Visual Studio Code IDE
- MySQL
- MongoDB
- PHP
- HTML
- CSS

Soft Skills:

- Excellent Communication
- Multitasking and Prioritization
- Problem Solving
- Adaptability
- Diligence

Programming Languages:

- Java Programming Language
- Visual Basic Programming Language
- C# Programming Language
- JavaScript Programming Language
